Pack Mule Electric Utility Vehicle Manufacturer Selects Trojan Battery to Power its Material Handling and Supply Chain Equipment

SANTA FE SPRINGS, Calif., April 9, 2018 – [Trojan Battery](http://www.trojanbattery.com) Co., LLC, the world’s leading manufacturer of deep-cycle batteries, has been selected by [Pack Mule](http://www.packmule.com) as its “battery of choice” to power the company’s wide range of electric utility vehicles. Pack Mule is Trojan’s newest Original Equipment Manufacturer (OEM) customer to feature Trojan deep-cycle batteries.

As a leading equipment supplier to the material handling and supply chain industries, Pack Mule will install Trojan T125 deep-cycle batteries which are designed for rugged durability and offer maximum sustained performance, longer life and increased total energy.

“Pack Mule prides itself on manufacturing only the highest quality electric utility vehicles on the market today, so it only made sense that we chose Trojan, the world’s foremost deep-cycle battery manufacturer, as our exclusive battery supplier for our equipment,” said James Folger, director of the electrical vehicle group at Pack Mule. “Previous suppliers came up short on reliability and availability, but Trojan’s exceptional customer satisfaction track record and customer loyalty really impressed our team. We are excited to include Trojan’s superior battery products in our premiere equipment offerings.”

GEORGIA

5174 Minola Drive, Lithonia, GA 30038 | Tel.678.518.7300 | Tel.800.246.2550
3012 George J. Lyons Parkway West, Sandersville, GA 31082 | Tel.478.292.2000 | Tel.800.246.2550

Trojan's T125 6-volt battery will power Pack Mule's burden carriers, cart tuggers, personnel carriers, custom vehicles and stock chasers. Featuring Trojan's T2 Technology™ for sustained capacity and total overall ampere-hours, the T125 features Alpha Plus® Paste, a proprietary, high-density paste formulation precisely engineered to maximize performance of Trojan's flooded deep-cycle batteries.

"The extensive lab testing that our engineering team conducted, comparing Trojan batteries to the batteries from the supplier Pack Mule was using previously, proved beyond a doubt that Trojan would deliver a greater cycle runtime, which made them switch to Trojan," said Tom Weiss, strategic business development manager for Trojan Battery.

About Pack Mule

Pack Mule is based in Scottsdale, Ga. and manufactures industrial electric vehicles, trailers, and pallet trucks. For more information, visit <http://packmule.com/electric-utility-vehicles>.

About Trojan Battery Co., LLC

Trojan Battery is the world's leading manufacturer of deep-cycle batteries and a battery technology pioneer, having built the first golf car battery in 1952. Trojan batteries provide power for a wide variety of applications that require deep-cycle battery performance, including airport ground handling equipment, aerial work platform, floor cleaning machines, golf and utility vehicles, marine/RV, material handling, oil/gas and renewable energy.

Founded in 1925, the company is ISO 9001:2008 certified with operations in California and Georgia, and maintains two of the largest and most extensive research and development (R&D) centers in North America, and its first facility in Europe located in Ireland. All three R&D complexes are dedicated to engineering new and advanced battery technology. For more information on Trojan Battery Co., visit www.trojanbattery.com.
