VSP News: Kolman's Korner, Episode 69 - AGM Versus Traditional Batteries

In this installment, Fleet Maintenance editor David A. Kolman has a conversation about AGM versus traditional batteries with Brad Bisailon, director of strategic accounts, North America and Europe, for the Trojan Battery Company – the world’s leading manufacturer of deep cycle batteries and a battery technology pioneer.

Among the topics discussed: the differences between the two types of batteries and advice for fleets considering switching from traditional to AGM batteries.
