

## True Deep-Cycle AGM Battery

---

1/15/15

The Reliant AGM with C-Max technology is a true deep-cycle AGM battery available from the Trojan Battery Company. The Reliant AGM maximizes sustained performance and increases total energy output to meet demanding deep-cycling requirements in telecom site applications. Reliant AGM is also designed to power equipment used in locations where regulatory mandates require use of non-spillable batteries such as airports, healthcare facilities, shopping centers and educational institutions. Reliant's C-Max technology features a proprietary paste formula, unique separator, special polymer case design and maximum flame arrestors. [www.trojanbattery.com](http://www.trojanbattery.com)
